

Wheat Domestic Fundamentals:

Wheat prices remained unchanged due to steady demand and arrivals. Market is expected to trade steady to firm due to low imports and festive demand. Wheat mill delivery at Lawrence Road is likely to touch Rs 2090-2100 per quintal in coming weeks which is currently hovering around Rs 2050 per quintal.

As per trade sources imported wheat from various origins to Tuticorin port witnessed weak tone in the week. As of now Ukrainian wheat is being quoted at Rs 2175-2185 per quintal. Australian Standard Wheat (ASW) and Australian Premium Wheat (APW) are not available in domestic market. Stock of imported wheat is very low.

As per latest update, wheat has been sown in 18000 hectares so far against 2000 hectares a year ago. Sowing is in initial phase and is likely to pick up in next 10-15 days. Wheat acreage is expected to remain higher this year due to increase in MSP.

All India weekly average prices decreased by 0.79 percent to Rs. 2018.69 per quintal during the week ended 23rd October 2018. Wheat average price were ruling at Rs 2034.69 per quintal during 09-15 October 2018. As compared to prices in the week 16-23 October 2017, the prices are firm by 4.18 percent. Prices are expected to remain firm in coming days due to good domestic demand.

As per trade sources, after increase in import duty to 30 percent imports have decreased substantially. India has imported 1000 tonnes of milling wheat from Pakistan at \$ 318.53 per tonne (Including import duty) in the month of September-2018. Imports are expected to be low this year due to good domestic availability and increase in import duty. India has imported around 31000 tonnes in the month of February-2018.

As per trade source, India has exported around 2.80 thousand tonnes in the month of September compared to 1.90 thousand tonnes in August. The quantity in September was exported at an average FOB of \$ 381.68 per tonne and the major destinations were Nepal, UAE, Sri Lanka and New Zealand. Exports are likely to be at lower side as other countries are able to provide quality wheat at competitive prices.

Wheat WPI has increased from 148.6 in August -2018 to 149.8 in September-2018. Monthly wheat inflation has increased by 0.81 percent in September -2018 compared to previous month. As compared to September-2017 wheat WPI has increased by around 8.87 percent. Wheat WPI is expected to stay steady to slightly firm in coming months.

India mainly imports from Australia and Russia. Wheat prices have become firm in both the countries due to lower production. As of now, Russian wheat with 12.5 percent protein content and Australian premium wheat (APW) is being quoted at \$340 (Rs 25040) per tonne and \$367 (Rs 27000) per tonne respectively, after including freight and import duty @30%. Whereas wheat mill quality price in South India is ruling around Rs 23500-24000 per tonne.

As per latest update, hybrid varieties of wheat such as HD 8579, HD 4728, HW 5207, HS 562, HD 3171 and HD 1605 have been introduced for upcoming Rabi season. All the hybrid varieties have good yields especially when used in irrigated areas. In case farmers go for these varieties in upcoming Rabi season, production is expected to increase.

Previous Updates:

As per fourth advance estimate, wheat production has been pegged at 99.70 MMT compared to 98.61 MMT in its third advance estimate issued in the month of May-2018. Total food grain output is expected to be around 284.43 MMT compared to 279.51 MMT in earlier estimate.

International Market Update:

Egypt's state grains buyer, GASC has purchased 470000 tonnes of wheat for shipment during 11-20 December. Of the total quantity 350000 tonnes was Russian wheat, 60000 tonnes was Ukrainian wheat and 60000 tonnes was U.S. wheat. ECTP offered 55000 tonnes of Russian wheat at FoB \$230.00 per tonne, GTCS offered 120000 tonnes of Russian wheat at FoB \$234.99 per tonne, Cargill offered 55000 tonnes of Russian wheat at FoB \$234.27 per tonne, Daewoo offered 60000 tonnes of Russian wheat at FoB \$234.99 per tonne, Aston offered 60000 tonnes of Russian wheat at FoB \$234.99 per tonne, Louis Dreyfus offered 60000 tonnes of Ukrainian wheat at FoB \$234.58 per tonne and Cargill offered 6000 tonnes of U.S. soft red wheat at FoB \$218.50 per tonne.

Russian milling wheat prices became weak by \$4-5 per tonne at Novorossiysk and \$2 per tonne at Odessa compared to last week. Wheat prices were weak due to strong ruble and higher dollar. As per USDA, Russia is expected to produce 70.00 MMT in 2018 compared to 84.99 MMT in 2017. As of now Russian milling wheat with 12.5% protein content at Novorossiysk port is being quoted at FoB \$226.00-230.00/tonne and milling wheat with 12.5% protein content at Odessa is being quoted at FoB \$224.00-230.00/tonne.

Morocco will suspend import duty on wheat during from 01st November-31st December'18 and a duty of 30 percent will be applicable from 01st January'19. This step has been taken to increase supply and avoid price hikes in domestic market.

Outlook: Cash market is expected to trade steady to firm in the near term.
